

Essentials of Concrete

Materials & Testing

On 12th June, 2021 at 4.00pm to 6.30pm on zoom platform

Every Project Engineer needs to know the about Materials and Testing related to concrete irrespective of position – Junior or Senior. The only guidelines document available is IS456:2000 section 2.

The need of Project Engineers go beyond the documents and guidelines and arises out of experience on field. This experiences of execution and testing are also project specific but most of it is universal too.

You will be understanding these subjects from -

- 1) Mr. Jayant Kulkarni – MD, Epicons – provisions in IS456:2000 and its relevance .**
- 2) Mr. P. P. Pandey – Sr. GM (Projects) – A very senior field person - Finer Points in interpreting test results.**
- 3) Mr. S. S. Dhuri – In charge 'e'Cube – Specialized Testing – Basics of Mix Design**

The objective of the Webinar 121 is to focus on Materials, Testing & Interpretation. This webinar will be useful for Engineers working for Authorities and Corporations, Contractors, Consultants etc. It will serve as Introductory Course for juniors as well as freshers seeking jobs and Refresher Course for Seniors and Faculties from Engineering Colleges.

Registration Charges (including GST):

Professionals – Rs. 400 | Faculties - Rs. 250 | Students - Rs. 150
